

Comprehensive Managed Review

Expert, defensible review services that increase quality, efficiency and cost savings

- Reduces the cost of client's review expenditure - frequently by double digits
- Document coding practices ensure a high level of accuracy and efficiency
- Global reach ensures local market expertise and access to best practices

Managed Review Services

Document review is the most expensive and time-consuming component of any eDiscovery exercise. Seventy-three percent of all eDiscovery expenses are related to review,¹ with larger and more varied data sets driving the price tag even higher. To combat the escalating expense of document review, corporations and their outside counsel seek approaches that lower costs without sacrificing quality, timeliness or defensibility.

Consilio meets these demands with three Document Review Services: Staffing, Coordinated Review and Comprehensive Managed Review. Each option provides instant access to our global network of thousands of prescreened legal professionals as well as expert recruiters capable of quickly staffing the review with the right resources. Review location is flexible—clients can choose from any of our review centers, utilize their own space or opt to use an on-demand review center, a temporary location that meets the matter's requirements. Plus, clients can choose the amount of review oversight needed for the matter.

Certifications

The Most Relativity
Masters Worldwide

Our Managed Review Includes:

A More Consultative Approach

Our review specialists are guides, not order takers. We challenge assumptions based on experience and ask the right questions at the start to keep your review on track and on budget.

Experienced Lawyers On Call

We quickly staff your project from our pool of highly qualified attorney reviewers, working independently or with your team.

Greater Mastery Of The Tools

Our expert advisors have over 200 Relativity Certifications, including more Relativity Masters than any other eDiscovery company. We know the enhanced tools because we've built them.

Technology That Optimizes Review

We use the most powerful eDiscovery tools on the market, turbocharged with our own platform – Consilio Complete

eDiscovery. Our dedicated development team has combined powerful analytics with customizable workflows and intelligent dashboards—all with world-class data security.

Serious Security

Our 7 dedicated review centers feature multiple layers of physical security—including guards, cameras and biometrics; network perimeter controls to identify and prevent network intrusion; and staff members who have undergone stringent background checks—all to ensure the maximum in security and data privacy.

Supervision and Oversight

Our document review managers—licensed attorneys and former litigators with years of hands-on discovery experience—supervise all resources and processes.

CASE STUDY

Managed Review Helps Reduce Telecom Merger Review by 4 Weeks

Merger in highly regulated telecommunications industry involved requests from multiple agencies within tight timeframes.

Our Managed Review team coordinated with two AmLaw 100 firms to simultaneously fulfill all requests and FCC filings in under nine weeks—four weeks ahead of schedule. This in turn helped the client save money, meet their regulatory obligations faster and successfully close their transaction.

Global Locations

Our clients' matters cut across jurisdictions with different data privacy and protection regulations, security requirements and budgetary pressures. That's why our review centers are stationed strategically across the globe.

On-Demand Review Centers

In addition to our current locations, temporary review centers can be established anywhere in the world with the same strict security protocols and our multilingual team of global experts.

Secure Remote Review

Get the right documents in front of the right experts—regardless of location. Ask how our secure remote review solutions can enhance the efficiency and quality of your on-site, review center-based projects.
