Class action lawsuits present unique challenges when it comes to discovery. Whether quickly engaging to develop and execute an effective and defensible litigation hold and collection strategy at the “reasonable anticipation” of a class action or leveraging the use of analytics to focus the review burden to likely responsive ESI to limit cost burdens -- Consilio has been an eDiscovery partner to counsel in over 30 class actions in the last 10 years.

Consilio's has leveraged specialized expertise, tools, and workflows that assist in the effective response to matters in the earliest of stages through to mature matters switching partners mid-stream:

- Leverage of advanced analytics and culling techniques to reduce large collections to relevant data -- reducing downstream processing & review costs**
- Expertise in coordinated global document collections, processing, and hosting workflows leveraging global technology infrastructure, best practice workflows and regional experts in data privacy regulations**
- In-depth expertise in coordinating cross-jurisdictional case management, including first-level reviews, quality assurance processes, redaction and privilege log workflows as well as productions.**

Case Study

Innovative eDiscovery Workflow Process Helps Packaged Food Manufacturer Defeat Class Action Law Suit

Challenge

A large packaged food manufacturer was the defendant in a class action matter and needed assistance with a matter that would involve a significant amount of electronically stored information (ESI).

Solution

Consilio helped identify 40 custodians involved with the process leading up to the filing of the action, then preserved and collected over four (4) terabytes of data using remote and on-site collection tools. Consilio created a managed review protocol for the review of about 250,000 records, utilizing 14 subject-matter qualified attorneys and a review manager.

Advantage

Using Consilio's proprietary technology, counsel was able to reduce the 4 terabytes down to only 90 gigabytes that required processing and review – nearly a 98% reduction. The client's counsel was able to use the evidence discovered to defeat the motion for class certification.
