While cloud computing has its strengths, achieving enterprise-grade data security, global infrastructure flexibility, processing innovations that scale, and workflow efficiency & reporting is nearly impossible without multi-year, multi-million dollar investments. **Consilio Complete Data offers clients access to global, enterprise-grade data processing, hosting & production infrastructure that streamlines the elements of the eDiscovery process beyond the capabilities of cloud computing.**

The Complete Data Difference

- **Automated & Scalable Capacity, Speed and Quality** — Quickly ingest & index multiple terabytes of data a day with accurate output. Our Central Command allows the ability to shift resources where needed to meet demand.
- **Secure global infrastructure** of 15+ data centers, ISO 27001/SAS 70 and/or Type 2/SSAE 16 certified and regularly audited to accommodate privacy, regulation & cross-border data movement needs. Data security & operations monitored 24-7-365 by network operations & information security teams.
- **Data support when you need it** with over 100 processing engineers, hosting, IT & network operations specialists on staff globally.
- **Enriched processing to aid workflow efficiency** — Automatic processing and population of key metadata fields for all processed custodians, all file paths, all efiles as well as parent email wrapper identification that contain expanded header data for child emails.
- **Specialized handling of files** — Ensuring important data is not lost with specialized handling of data from corrupted files, processing of Apple iWorks for review in Relativity or natively on PCs, as well as decryption & password cracking workflows.

The Complete Data Difference - Data Security

Our team takes our obligation to protect your privacy very seriously. Our protocols and practices, developed through years of experience and research, follow—and often exceed— international best practices for security of data, documents and work product. Our complete suite of eDiscovery and risk management solutions is physically located in multiple certified and secure data centers across North America, the U.K., Europe, and Asia. Also, as part of our overall commitment to security and privacy, Consilio has self-certified under both the EU-US and Swiss-US frameworks.

Consilio Security/Compliance Certifications

Our complete suite of eDiscovery solutions is physically located in certified and secure data centers.

- ISO\IEC 27001:2013 certified
- HITRUST certified
- Cyber Essentials Plus
- ITAR compliant
- GDPR compliant
- CCPA compliant
- Compliant with EU-US and Swiss-US principles

Inquire with your Consilio client relationship manager or contact us for more information on certifications.

Why Choose Consilio?

A More Consultative Approach

Our specialists are there to guide you. We challenge assumptions based on experience and ask the right questions at the start of the process, keeping your review on track and on budget.

A Drive to Achieve Service Excellence

Our teams utilise proven processes and patent-pending QC overview to deliver fast turnarounds without sacrificing quality.

Right Solution for the Right Results

With a team of over 100 software and database engineers, we innovate to help our clients excel beyond the status quo, from in-house platforms to enhancements of off-the-shelf solutions.

Together as One Global Practice

Through our expert advisors, technology infrastructure, matter expertise and proven workflows we offer our clients global reach and local expertise together.
