Key Sightline Features and Capabilities for Early Case Assessment

Sightline for Early Case Assessment helps your team respond effectively with smart tools to assess data quickly to identify actionable facts.

Process Matter Data Quickly
From direct connectors (inc. M365, Teams, and more) to drag-and-drop, choose the data collection / upload process that works for your team.
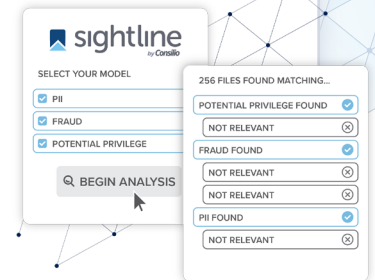

Get Started Quickly
Sightline's intuitive user interface is modeled after experiences you use every day – simplifying your learning curve and speeding up time-to-insights.

Interrogate Data Efficiently with Data Visualizations
Narrow to persons, topics, and timeframes of interest with Concept Map, Communications Explorer, and Timeline & Gaps interactive reports.

Leverage the Power of AI to Identify Actionable Facts Quickly
With Sightline, you can simply load data and leverage hundreds of pre-built, reusable and customizable data models (covering IP theft, PII / PHI / PCI, Discrimination / Harassment, Fraud / FCPA, and more) to identify actionable facts quickly. Enhance and customize models to fit the specifics of your organization to refine results over time and gain more leverage. Customized models are portable across matters through available project templating.
