Key Sightline Features and Capabilities for Regulator Response

With a powerful, customizable user experience, workflow and review productivity tools, Sightline is designed to help teams meet regulator response substantive & deadline requirements.

Process Matter Data Quickly
From direct connectors to drag-and-drop, choose the data collection / upload process that works for your team.

Faster, More Intuitive Searches
Quickly import stated search terms or visually build queries using metadata, content, and work-product that return accurate results every time.

Leverage Categorization for Prioritization / QC
Quickly identify relevant document sets and leverage categorization to identify other similar documents for prioritization.

Quickly Assign Review Projects to Your Team
Quick batching of assignments allows you to stay ahead by delegating review work to your team members in 3 easy clicks.

Search & Redact Privilege / PII / PHI and More Easily
Using your specific terms or our customizable libraries, easily find and redact sensitive data directly individually or in batches.

Leverage Easy-to-Use Continuous Active Learning
By identifying a few documents, Sightline's CAL engine begins classifying additional documents for relevance, priviledged, or other tags automatically.

Be Supported when Needed
Regulatory inquiries often utilize our extended support teams – supporting you from project management to review resources – giving you the boost to meet critical timelines and control cost.
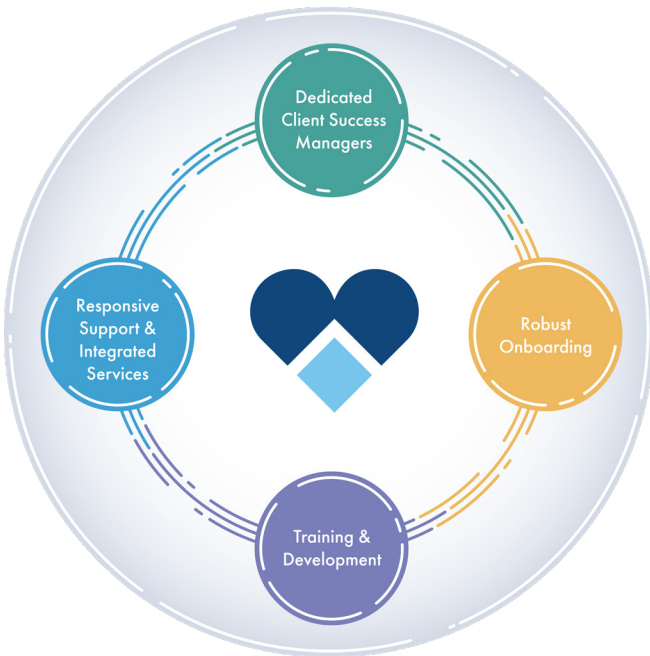

Focus on the Features you Need
Sightline's document review interface can be fully customized to feature only the capabilities you need. Lightning-fast document viewer and speed coding features allow for rapid completion of documents.

Seamless Sharing
Share your workflow across projects easily with the people who need to access & work within it.

Trusted to Perform

Unlike other solutions, Sightline is hosted on Consilio's secured private hosted infrastructure and not on the public cloud. Trusted by over 4,000+ global corporations and law firms across the world, your client's data and experience is backed by dedicated teams of product, engineering, and security experts. Hosted on global environments including U.S. ITAR, Consilio successfully completes over 150 security audits annually for clients from financial services to bio / pharmaceutical – conforming to the strictest requirements.
