

# How Consilio Supports Panel Counsel

With over 20 years of experience serving the AM Law 200 and leading Insurance Defense and Coverage firms, Consilio understands the importance of supporting the full spectrum of Insurance Defense and Coverage matters in a cost-conscious yet defensible fashion. Proudly represented on eDiscovery panels for the world's largest and recognizable Insurance carriers, our Insurance Advisory Team of experts is the culmination of experience gained from over the last two decades. We welcome the opportunity to support your goals.

## Here are 6 ways we are working with Panel Counsel:

### 1. Forensic Data Collection:

Consilio's Digital Forensics and Experts Services (DFES) team identifies and collects electronically stored records, from places such as phones, email accounts, servers/file stores and more, and they do so in a defensible fashion (that our experts are happy to testify to).

### 2. Self Service eDiscovery with Consilio's Sightline:

While we use and support Relativity, we know that some counsels want a more hands-on solution they can execute themselves, particularly in situations with high volumes of small claims that don't require large-scale, long-term engagements and support. Upload, process and set up your data for review – whenever you want. Sightline is utilized in all kinds of matters (claims, investigative, litigation prep).

### 3. Data Analytics:

Combining deep legal & technical expertise, Consilio delivers practical, defensible, applied analytics (Email Threading and Data Reduction, Immediate Case Assessment, Machine Learning, Language ID) to matters of all sizes with a global, dedicated team of experts.

### 4. Document Review:

With 73% of all eDiscovery costs attributed to document review, optimizing this most expensive and time-consuming part of the cycle delivers tangible value to our clients. With review resources in the US and globally, Consilio is a force multiplier for Panel Counsel in both large and small reviews. Leveraging our teams of in-region experts around the world, our proven workflows, and our certified, secure technology infrastructure, we ensure that counsel can tackle any review challenge and deliver a cost-effective, quality review product.

### 5. Cyber Incident Services:

Panel Counsel and Breach Coaches know the value of Consilio's Cyber services. Our no-risk/no-cost ingestion, transparent pricing, and Advanced Data Mining services are proven to save money while making Counsel's jobs easier and more defensible when it comes time for notification. Consilio handles a variety of incident types, employs custom data analytics and solutions, and can

Global Leader in Legal Consulting and Services

host data and perform reviews in regions (and languages) around the globe to satisfy data privacy and jurisdictional requirements. As a panel-approved provider to several carriers, and a trusted, go-to partner for the leading Breach Counsels and Am LAW 200 Privacy Groups, Consilio continues to innovate and find ways to reduce the costs of the manual review and notification process.

## 6. Staffing / Flex Talent:

Whether you need legal talent for a short- or long-term engagement, Consilio delivers high-quality talent solutions from our Flex Talent pool. Flex resources work under the guidance of outside counsel, allowing you to stay ahead of deadlines, manage additional workload, and deliver cost-efficient results to your client.
