With over 270 million daily active users, Microsoft Teams has swiftly emerged as the preferred collaboration tool for numerous global enterprises and legal firms. Its rapid adoption, however, brings unique challenges for legal workflows – from vast data landscapes and intricate content structures to licensing concerns and integrated files.

Sightline's current capabilities handling Teams data sets the current state of art for legal hold and discovery platforms. Incorporating best practices developed over thousands of client matters, Sightline offers clients the ability to control their data workflow with tools to uncover relevant information and make matter-level smarter decisions.

Connect and Preserve or Collect from Microsoft sources and more

## Key Capabilities Handling Teams Data in Sightline

**End-to-end data management in one unified location, by using Sightline Legal Hold for preservation in place, Connectors to collect and process data, and Sightline to analyze, review, and produce data.**

### Robust Preservations SIGHTLINE LEGAL HOLD

Sightline Legal Hold integrates with Microsoft Purview to allow preservation-in-place of Teams, Channels, Chats, and Files, as well as SharePoint and 365 Mailboxes, ensuring no data is lost early in your Legal Hold process.

### Efficient Collections SIGHTLINE

Our Connectors provide straightforward access to your sources, coupled with robust filtering and culling capabilities. This ensures you capture only the relevant data, optimizing the volume and efficacy of your collections. Furthermore, for Teams, we ensure important context is retained by collecting system messages like chat entries or exits. Meanwhile, auto-generating day-gapped conversations ensures your reviews remain well-organized.

### Analysis & Review SIGHTLINE

Sightline provides users with a top-rated platform to handle Teams data. Should you have additional data, you can effortlessly integrate other sources, import loose files or archives, or even map to third-party productions. Our intuitive user interface, along with project templates and expedited batching, streamlines repeated project setups. Advanced search functions, dynamic data visualizations, and cutting-edge analytics powered by AI all converge to enhance your review efficiency and the quality of your work output.

## sightline care

**Best-in-class service and support from the global leader in eDiscovery.** When you choose Sightline by Consilio, you benefit from a strategic partner committed to your success with expertise solving for the toughest challenges. We do this by offering:

- **Dedicated Client Success Managers** support you as a client advocate from onboarding and training through maximizing your Sightline investment.
- **Sightline-certified Project Managers** working as experienced extensions of your own team – able to support you no matter the task.
- **Seamlessly integrated support services** offer bandwidth available on demand at a reasonable cost.
- **Secure, private hosted infrastructure** provides peace of mind that you and your client’s data are in good hands.
- **Self- or Full-service options** provide you with support flexibility across regions, matter types, or individual projects

## Trusted to Perform

Unlike other solutions, Sightline is hosted on Consilio’s secured private hosted infrastructure and not on the public cloud. Trusted by over 4,000+ global corporations and law firms across the world, your client’s data and experience is backed by dedicated teams of product, engineering, and security experts. Hosted on global environments including U.S. ITAR, Consilio successfully completes over 150 security audits annually for clients from financial services to bio / pharmaceutical – conforming to the strictest requirements.
